

The Dutch Node of METROFOOD-RI To enhance quality and reliability of measurement results

To make available and share data, information and metrological tools

To enhance scientific excellence in the field of food quality & safety

To strengthen scientific knowledge, promoting scientific cooperation and integration

PARTNERS

RIVM National Institute for Public Health and the Environment

RIVM has been promoting public health and safeguarding environmental quality in the Netherlands for over 100 years. www.rivm.nl/en

WUR

Wageningen University and Research, Wageningen Food Safety Research and Biometris

Wageningen Food Safety Research conducts independent research into the safety and reliability of food. Biometris develops statistical and mathematical methods for the quantification of biological processes and processes in our living environment.

Physical Facilities

RM

Analytical Labs

Wageningen Food Safety Research is specialised in detecting and identifying substances in food and animal feed and determining the functionality and effect of those substances.

Wageningen Food Safety Research is the National Reference Laboratory (NRL) for milk, genetically modified organisms, and nearly all chemical substances, and is also the European Union Reference Laboratory (EU-RL) for substances with hormonal effects, feed additives and mycotoxins.
